

Index to the NLGI Spokesman

Volume 64: April, 2000 - March, 2001

INDEX BY AUTHOR

Bartlett, Melinda E., *FP Additized Greases - Part 2: Rheological Test Development Correlation with KRL Bearing Results*, July, 2000

Beret, Samil, *Lubrication of Wheel-Ends in Tractors and Trailers*, August, 2000

Bessette, Paul A., *The Development of an Improved Contact Lubricant Based on a Six Ring Polyphenyl Ether Fluid*, September, 2000.

Bessette, Paul A., *A Few Insights Into Grease Testing*, March, 2001.

Blackburn, Gary R., *Assessing the Carcinogenic Potential of Lubricating Base Oils*, December, 2000.

Boersig, Thomas J., *An Unconventional Approach to Low Temperature Grease*, March, 2001.

Burkhalter, R.L., *Know Your Plant Capacity*, February, 2001.

Cann, P.M., *Infrared Spectroscopic Characterisation of Grease Lubricant Films on Metal Surfaces*, October, 2000.

Cann, P.M., *Starved Lubrication of EHL Contacts - Relationship to Bulk Grease Properties*, May, 2000

Cherry, Noreen A., *Spilling the Beans About Castor Oil and Its Derivatives*, April, 2000

Costello, Bernard, *A New Compressional Rheometer for the Measurement of Viscoelasticity*, July, 2000

Crandall, Rick S., *Development of an All-Weather Tractor Hydraulic Fluid*, August, 2000

Cristiano, Anthony, *Requirements for Environmentally Acceptable Greases According to "Blue Angel Regulation"*, November, 2000.

Fowzy, Mahmoud A., *New Global Aerospace Grease SAE AMS-M Aerospace Grease Core Specification*, December, 2000.

George, Herman F., *FP Additized Greases - Part 1: Bearing and Analytical Performance*, June, 2000

George, Herman F., *FP Additized Greases - Part 2: Rheological Test Development Correlation with KRL Bearing Results*, July, 2000

Gow, Graham, *From Black to White - Problem Solving for Heavy Load Applications*, May, 2000

Holinski, Ruediger, *New Solid Lubricants as Additive for Greases - "Polarized Graphite"*, September, 2000.

Honary, Lou A.T., *Field Test Results of Soybean-Based Greases Developed by UNI-ABIL Research Program*, October, 2000.

Hsu, Chris, *Development of a Key Life Test to Predict Automotive Ball Joint Wear Using the Cameron-Plint High Frequency Friction Machine*, March, 2001.

Hurley, S., *Infrared Spectroscopic Characterisation of Grease Lubricant Films on Metal Surfaces*, October, 2000.

Hurley, S., *Starved Lubrication of EHL Contacts - Relationship to Bulk Grease Properties*, May, 2000

Jungk, Manfred, *New Solid Lubricants as Additive for Greases - "Polarized Graphite"*, September, 2000.

Kernizan, Carl F., *FP Additized Greases - Part 1: Bearing and Analytical Performance*, June, 2000

Kernizan, Carl F., *FP Additized Greases - Part 2: Rheological Test Development Correlation with KRL Bearing Results*, July, 2000

Korff, Joachim, *Requirements for Environmentally Acceptable Greases According to "Blue Angel Regulation"*, November, 2000.

McIntyre, Gary, *Development of a Key Life Test to Predict Automotive Ball Joint Wear Using the Cameron-Plint High Frequency Friction Machine*, March, 2001.

Mistry, Anuj, *Grease Compatibility Revisited*, January, 2001.

Odorisio, Paul, *A Review of the Mechanisms of Action of Antioxidants, Metal Deactivators and Corrosion Inhibitors*, February, 2001.

Okamura, Seiji, *A Study of the Behavior of Diurea Greases by Ferrography Analysis*, November, 2000.

Oliveto, Christina M., *FP Additized Greases - Part 1: Bearing and Analytical Performance*, June, 2000

Pohlen, Josef, *From Black to White - Problem Solving for Heavy Load Applications*, May, 2000

Reyes-Gavilan, J.L., *A Review of the Mechanisms of Action of Antioxidants, Metal Deactivators and Corrosion Inhibitors*, February, 2001.

Rhee, In-Sik, *21st Century Military Biodegradable Greases*, April, 2000

Robinson, Gene E., *Development of an All-Weather Tractor Hydraulic Fluid*, August, 2000

Samman, Nicolas, *Grease Based Lubricant: Mist-Free Rockdrill Lubrication*, April, 2000

Sivik, Matthew R., *An Investigation into the Performance of Grease Additives as Related to the Temperature of Addition: Part I*, June, 2000

Todd, Patricia R., *An Investigation into the Performance of Grease Additives as Related to the Temperature of Addition: Part I*, June, 2000

Maeda, Jusei, *A Study of the Behavior of Diurea Greases by Ferrography Analysis*, November, 2000.

Wiggins, Gary W., *An Investigation into the Performance of Grease Additives as Related to the Temperature of Addition: Part I*, June, 2000

Whittingstall, Peter, *A New Compressional Rheometer for the Measurement of Viscoelasticity*, July, 2000

Yoshimatsu, Takao, *A Study of the Behavior of Diurea Greases by Ferrography Analysis*, November, 2000.

Zakarian, Jack A., *Development of an All-Weather Tractor Hydraulic Fluid*, August, 2000

The Development of an Improved Contact Lubricant Based on a Six Ring Polyphenyl Ether Fluid, Paul A. Bessette, September, 2000.

Field Test Results of Soybean-Based Greases Developed by UNI-ABIL Research Program, Lou A.T. Honary, October, 2000.

An Unconventional Approach to Low Temperature Grease, Thomas J. Boersig, March, 2001.

— Additives —

From Black to White – Problem Solving for Heavy Load Applications, Josef Pohlen, Graham Gow, May, 2000.

An Investigation into the Performance of Grease Additives as Related to the Temperature of Addition: Part I, Todd, Patricia R. Todd, Matthew R Sivik, Gary W. Wiggins, June, 2000.

New Solid Lubricants as Additive for Greases - "Polarized Graphite", Ruediger Holinski, Manfred Jungk, September, 2000.

A Review of the Mechanisms of Action of Antioxidants, Metal Deactivators and Corrosion Inhibitors, J.L. Reyes-Gavilan, Paul Odorisio, February, 2001.

— Testing —

A New Compressional Rheometer for the Measurement of Viscoelasticity, Peter Whittingstall, Bernard Costello, July, 2000.

Infrared Spectroscopic Characterisation of Grease Lubricant Films on Metal Surfaces, S. Hurley, P.M. Cann, October, 2000.

A Study of the Behavior of Diurea Greases by Ferrography Analysis, Jusei Maeda, Takao Yoshimatsu, Seiji Okamura, November, 2000.

Assessing the Carcinogenic Potential of Lubricating Base Oils, Gary R. Blackburn, December, 2000.

Grease Compatibility Revisited, Anuj Mistry, January, 2001.

Development of a Key Life Test to Predict Automotive Ball Joint Wear Using the Cameron-Plint High Frequency Friction Machine, Chris Hsu, Gary McIntyre, March, 2001.

A Few Insights Into Grease Testing, Paul A. Bessette, March, 2001.

INDEX BY CATEGORY

— General —

Spilling the Beans About Castor Oil and Its Derivatives, Noreen A. Cherry, April, 2000.

Lubrication of Wheel-Ends in Tractors and Trailers, Samil Beret, August, 2000.

Know Your Plant Capacity, R.L. Burkhalter, February, 2001.

— Product Development —

21st Century Military Biodegradable Greases, In-Sik Rhee, April, 2000.

Grease Based Lubricant: Mist-Free Rockdrill Lubrication, Nicolas Samman, April, 2000.

Development of an All-Weather Tractor Hydraulic Fluid, Jack A. Zakarian, Gene E. Robinson, Rick S. Crandall, August, 2000.

— Environmental Issues —

Requirements for Environmentally Acceptable Greases According to "Blue Angel Regulation", Joachim Korff, Anthony Cristiano, November, 2000.

— Formulations/Research —

Starved Lubrication of EHL Contacts – Relationship to Bulk Grease Properties, S. Hurley, P.M. Cann, May, 2000.

FP Additized Greases – Part 1: Bearing and Analytical Performance, Carl F. Kernizan, Herman F. George, Christina M. Oliveto, June, 2000.

FP Additized Greases - Part 2: Rheological Test Development Correlation with KRL Bearing Results, Herman F., George, Carl F. Kernizan, Melinda E. Bartlett, July, 2000.

New Global Aerospace Grease SAE AMS-M Aerospace Grease Core Specification, Mahmoud A. Fowzy, December, 2000.

Development of a Key Life Test to Predict Automotive Ball Joint Wear Using the Cameron-Plint High Frequency Friction Machine, Chris Hsu, Gary McIntyre, March, 2001.

The Development of an Improved Contact Lubricant Based on a Six Ring Polyphenyl Ether Fluid, Paul A. Bessette, September, 2000.

Field Test Results of Soybean-Based Greases Developed by UNI-ABIL Research Program, Lou A.T. Honary, October, 2000.

FP Additized Greases – Part 1: Bearing and Analytical Performance, Carl F. Kernizan, Herman F. George, Christina M. Oliveto, June, 2000.

FP Additized Greases - Part 2: Rheological Test Development Correlation with KRL Bearing Results, Herman F., George, Carl F. Kernizan, Melinda E. Bartlett, July, 2000.

From Black to White – Problem Solving for Heavy Load Applications, Josef Pohlen, Graham Gow, May, 2000.

Grease Based Lubricant: Mist-Free Rockdrill Lubrication, Nicolas Samman, April, 2000.

Grease Compatibility Revisited, Anuj Mistry, January, 2001.

Infrared Spectroscopic Characterisation of Grease Lubricant Films on Metal Surfaces, S. Hurley, P.M. Cann, October, 2000.

Know Your Plant Capacity, R.L. Burkhalter, February, 2001.

Lubrication of Wheel-Ends in Tractors and Trailers, Samil Beret, August, 2000.

New Global Aerospace Grease SAE AMS-M Aerospace Grease Core Specification, Mahmoud A. Fowzy, December, 2000.

New Solid Lubricants as Additive for Greases - "Polarized Graphite", Ruediger Holinski, Manfred Jungk, September, 2000.

Requirements for Environmentally Acceptable Greases According to "Blue Angel Regulation", Joachim Korff, Anthony Cristiano, November, 2000.

Spilling the Beans About Castor Oil and Its Derivatives, Noreen A. Cherry, April, 2000.

Starved Lubrication of EHL Contacts – Relationship to Bulk Grease Properties, S. Hurley, P.M. Cann, May, 2000. *21st Century Military Biodegradable Greases*, In-Sik Rhee, April, 2000.
